

	<b>MATERIAL SAFETY DATA SHEET</b>	Rev.No	02
		Rev.Date	03.04.2007
<p><i>This document is issued in the respect of 91/155/EEC and Method &amp; Principles Declaration dated and numbered as 11/03/2002 , 24692</i></p> <p><i>Product: Refined Tablet Salt</i>  <i>COMPLIES WITH EN973 / FOOD GRADE REQUIREMENTS</i></p>			
<p><b>1- DEFINITION OF MATERIAL AND COMPANY:</b>          The product, 25kg Salt Industrial Tablet Salt, is chemically formed as %39,3 sodium and %60,7 chloride. Physical condition is white crystalline and the density is 1,20 – 1,40 gr/cm<sup>3</sup>          No additives included.</p> <p><i>ALPHA COMMODITIES SARL</i>  <i>PROMENADE-NOIR 1</i>  <i>CH-2001 NEUCHATEL</i>  <i>SWITZERLAND</i></p>			
<p><b>2- PRODUCT INFORMATION/ COMPOSITION:</b></p> <ul style="list-style-type: none"> <li>• % Moisture : 0,02</li> <li>• % Unsolved in Water : 0,01</li> <li>• % Sodium Chloride : 99,5– 100,5</li> <li>• Total Hardness (°F) : 1,2-1,8</li> <li>• Square tablet</li> </ul>			
<p><b>3- HARMNESS DEFINITION:</b>  <i>The product is stated as not to be harmful. However it must be checked for compatibility with other materials.</i></p>			
<p><b>4- FIRST AID DEFINITION:</b>  <i>Even dough the product is stated as not to be harmful, in case of any problem occurred due to working time, it is suggested to apply for authorized medical staff.</i></p>			
<p><b>5- FIRE DEFINITION:</b>  <i>The product is not inflammable.</i></p>			
<p><b>6- ACCIDENT PREVENTING DEFINITION:</b>  <i>Cause of the fallen product, precaution would be taken.</i></p>			
<p><b>7- STORAGE AND HANDLING:</b>  <i>The product must be stored in dry, cool, lightless and closed place in safe package.</i></p>			

	<b>MATERIAL SAFETY DATA SHEET</b>	Rev.No	02
		Rev.Date.	03.04.2007
<i>This document is issued in the respect of 91/155/EEC and Method &amp; Principles Declaration dated and numbered as 11/03/2002 , 24692</i>			
<i>Product: Refined Tablet Salt</i>			
<i>Company: ALPHA COMMODITIES SARL</i>			
<b>8- PHYSICAL AND CHEMICAL PROPERTIES:</b> <i>Ph of %20 solution is set to be 5,5 +- 1,0. The product is not corrosive.</i> <i>Melting Point: 800,4 °C</i> <i>Boiling Point: 1413 °C</i> <i>Solubility: in 0 °C water 35,7; in 100 °C water 39,8</i>			
<b>10 – STABILITY AND REACTION:</b> <i>The product is to be stable compound. No reaction would be occurred in case of normal storage conditions.</i>			
<b>11 – TOXICOLOGICAL INFORMATION:</b> <i>The product does not have any toxic negativity</i>			
<b>12 – EKOLOGICAL INFORMATION:</b> <i>Excess of material could cause negative effect on ecological equilibrium.</i>			
<b>13 – ANNIHILATION INFORMATION:</b> <i>It must be cared about enviorement in case of waste.</i>			
<b>14 – TRANSPORTATION INFORMATION:</b> <i>The product should be transported in coverd vehicles with leakproof packaging.</i>			
<b>15 – LEGAL REGULATION INFORMATION:</b> <i>The product is not be considered as dangerous product.</i>			
<b>16 - OTHER:</b> <i>Does not contain any additive.</i>
